

EMPLOYEE MANAGEMENT SYSTEM

Wireframe Design Documentation

UI/UX Screen Reference

1. Document Overview

This document records the Employee Management System wireframes supplied for the project. It covers authentication, administration, employee operations, leave, attendance, salary and payroll, support, notifications, and profile management.

2. Screen Summary

No.	Screen	Purpose
1	Landing / Login Page	Entry screen with login, role preview, remember-me, forgot-password, and registration/help.
2	Forgot Password	Password recovery screen for requesting a reset link using the registered email.
3	Admin Dashboard	Admin overview with employee, attendance, leave, payroll, support, notifications, and quick actions.
4	Employee Management	Employee directory with search, filter, employee details, status, View, Edit, and Delete.
5	Department Management	Department directory with search, department lead, employee count, status, View, Edit, and Delete.
6	Leave Management	Leave application, leave balance, leave history, pending requests, and approval status.
7	Attendance	Check-in/check-out, daily and weekly hours, monthly attendance, and attendance history.
8	Salary & Payroll — Employee View	Employee salary view with salary components, revision history, approved bonus, approved overtime, and payroll information.
9	Salary & Payroll — Admin View	Admin salary/payroll view with salary revision, bonus, overtime review, revision history, approved bonus, overtime, and payslips.
10	Support	Create tickets, set priority, describe issues, assign tickets, and update ticket status.
11	Notifications	All/unread notifications, leave updates, payroll updates, support updates, and Mark as Read.
12	Profile	Profile information including employee ID, contact, department, role, joining date, and Edit Profile.

1. Landing / Login Page

Purpose: Entry screen with login, role preview, remember-me, forgot-password, and registration/help.

The image shows a two-panel layout for the Employee Management System (EMS) landing and login page. The left panel features a large, stylized 'EMS' logo in the background. The text '01 / PEOPLE OPERATIONS' is visible above the main headline 'Work feels better here.' Below this, a sub-headline reads 'One considered workspace for every person, team, and important moment.' At the bottom of the left panel, three statistics are displayed: '248 PEOPLE', '94% ATTENDANCE', and '12 TEAMS'. The right panel is the login interface, titled 'EMPLOYEE MANAGEMENT SYSTEM' and 'Welcome back'. It prompts the user to 'Enter your details to access your workspace.' and includes input fields for 'Email or username' (pre-filled with 'name@company.com') and 'Password'. There is a 'Remember me' checkbox and a 'Forgot password?' link. A 'Preview as role' dropdown menu is set to 'Admin'. A 'Log in' button with a right arrow is at the bottom. At the very bottom of the right panel, it says 'New to EMS? Register / get help' and 'Protected by enterprise grade security - v2.4'.

2. Forgot Password

Purpose: Password recovery screen for requesting a reset link using the registered email.

The screenshot displays the 'EMPLOYEE MANAGEMENT SYSTEM' login interface. A modal window titled 'Reset password' is centered on the screen. The modal contains a 'Record details' header, a close button, and instructions to enter the registered email for verification. The email field is pre-filled with 'name@company.com'. A 'Verify and send link' button is positioned below the field. At the bottom of the modal are 'Cancel' and 'Save changes' buttons. The background login form includes a 'Welcome back' message, a prompt to enter details, and fields for 'Email or username' (pre-filled with 'name@company.com') and 'Password'. It also features a 'Remember me' checkbox, a 'Forgot password?' link, a 'Preview as role' dropdown menu set to 'Admin', and a 'Log in' button. Footer text includes 'New to EMS? Register / get help' and 'Protected by enterprise grade security - v2.4'.

Search

10. Support

Purpose: Create tickets, set priority, describe issues, assign tickets, and update ticket status.

11. Notifications

Purpose: All/unread notifications, leave updates, payroll updates, support updates, and Mark as Read.

12. Profile

Purpose: Profile information including employee ID, contact, department, role, joining date, and Edit Profile.

3. Role-Based Operation Notes

- **Employee:** View salary, revision history, approved bonus, approved overtime and payslips; submit overtime requests; apply leave; check attendance; create support tickets.
- **Manager:** View team information and attendance; approve or reject leave; review and approve or reject overtime.
- **HR:** Manage employees and departments; manage salary, salary components, salary revisions, bonuses, overtime approvals, payroll and payslips.
- **Admin:** Broader administrative access including employee, department, salary/payroll, user-role and support operations.
- **Support Staff:** View, assign, update, resolve and close support tickets.

4. Important Salary Rule

Employees should not directly add or modify their own salary, bonus, or salary revision. Employees can view approved salary information and submit overtime requests. Authorized HR/Admin users handle salary revisions and bonuses, while overtime follows an approval workflow.

5. Design Consistency

The supplied screens use a consistent left navigation, top header, workspace layout, tables, cards, status badges, and action buttons. This structure should remain consistent during frontend implementation.
